W505 provides a unique opportunity for educators to learn how to organize large scale service learning projects while providing service to help meet the continuing needs of those in the rebuilding effort in New Orleans. You will learn how to design a quality plan to help your own students link their academic learning to authentic service.

During Spring Break (March 13-19) the class will travel to New Orleans, LA. to partner with the UCC National Disaster Ministries and the Little Farms Church, long term inter-faith recovery and social justice initiatives related to intertwined issues such as the environment, health, education and the racism that runs through all these areas.
